

# DESMOND TUTU

By: Fadekemi

# How is he a witness?

He is a witness because he shaped his life in his belief. He helped others shape their lives too. Desmond had an impact to this world as he made a change in African society and also made all south Africans have equal rights.

# What impressed me the most?

The thing that impressed me is  
that he made a change in African  
society.

What difference has his courage and witness made to others made to others?

The difference Desmond gave to others is equality and the same rights has other people of the other race.

# What gives him the courage?

The thing that gives him courage is God and also his mission.  
Since he wanted to fight for freedom and for other  
generations.
