

## Systems in the Body: a Reminder

In year 3 and 4, you learnt about a number of different systems in the body. What can you remember? Complete systems in the body sheet from memory, then on the next slide, click the sheet to see the answers, check that you understand the information.

Picture of the System			
Name of the System	Skeletal System	Muscular System	Digestive System
Name at least 3 different parts of the system	Common bone names: skull, rib, rib cage, collar bone, ankle bones, upper arm bone, thigh bone, lower leg bone, finger bones, hand bones, shoulder blade, jaw, backbone, wrist, hips, knee cap, foot bones, lower arm bones, toe bones, breastbone.  Scientific bone names: cranium, vertebral column, costal, thoracic cage, sternum, clavicle, talus, tarsals, humerus, femur, tibia, fibula, phalanges, metacarpals, scapula, mandible, carpals, pelvis, patella, metatarsals, radius, ulna  Types of joints: hinge joint, ball and socket joint, gliding joint	Apart from the arm muscles, children may not know the scientific names of the muscles in the body. It is enough to identify them by locating them on the body.  Biceps, Triceps (in the arm)  Thigh (in the leg)  Face muscles  Back and stomach muscles  Any other muscle or muscle group that demonstrates knowledge of the part of the body if not the muscle name	Mouth, tongue, teeth, salivary glands, oesophagus, stomach, duodenum, small intestine, large intestine, gallbladder, pancreas, liver, rectum, anus.
Does this system contain organs? If so, which ones?	No	No	Yes - e.g. stomach, small intestine, large intestine, liver, pancreas.
What is the purpose of the system?	<ul><li>Support the body</li><li>Give the body shape</li><li>Protect the body</li><li>Enable movement</li></ul>	<ul><li>Allow the body to move</li><li>Give control over movement</li></ul>	<ul> <li>Break down food into nutrients</li> <li>Extract water from food</li> <li>Excrete waste from the body</li> </ul>

You have just reminded yourself about the skeletal, muscular and digestive systems in the body.

Do you know any other systems in the body? Have a think about it and discuss your ideas.

## Systems in Your Body

The system we will look at for the rest of this lesson is called the:

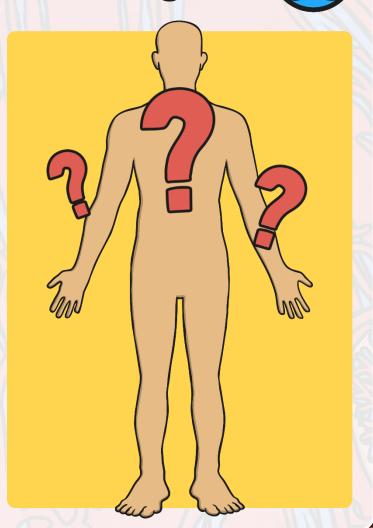

'Circulatory System'.

The word circulation means 'the movement to, fro or around something'.

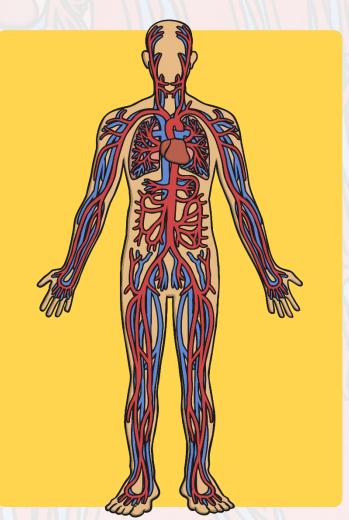

Discuss or think about the answers to the following questions:

What does the system do?

What are the parts of the system?

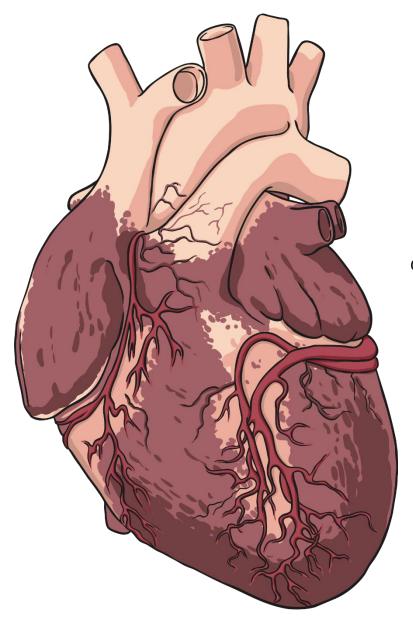

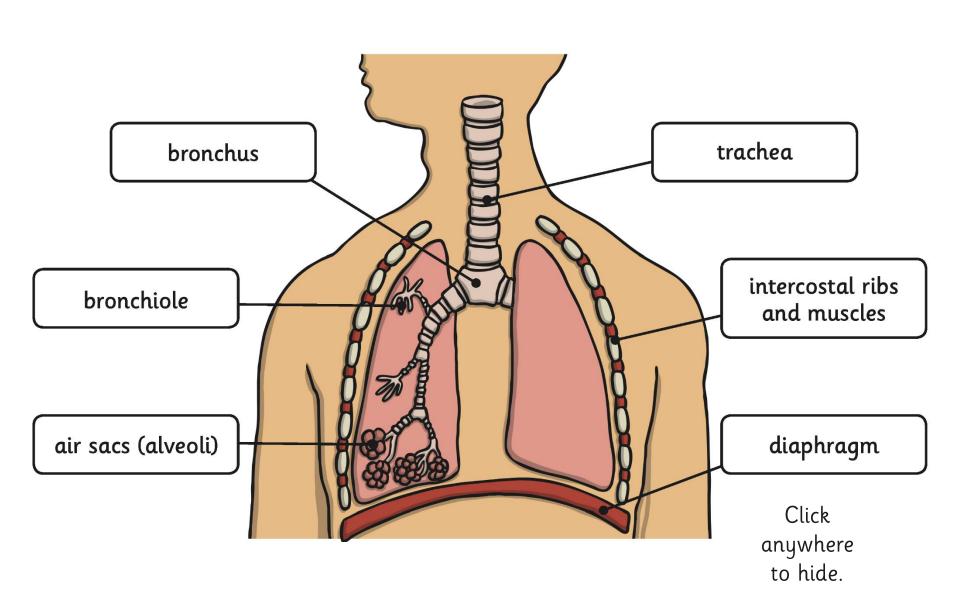

What can you see?

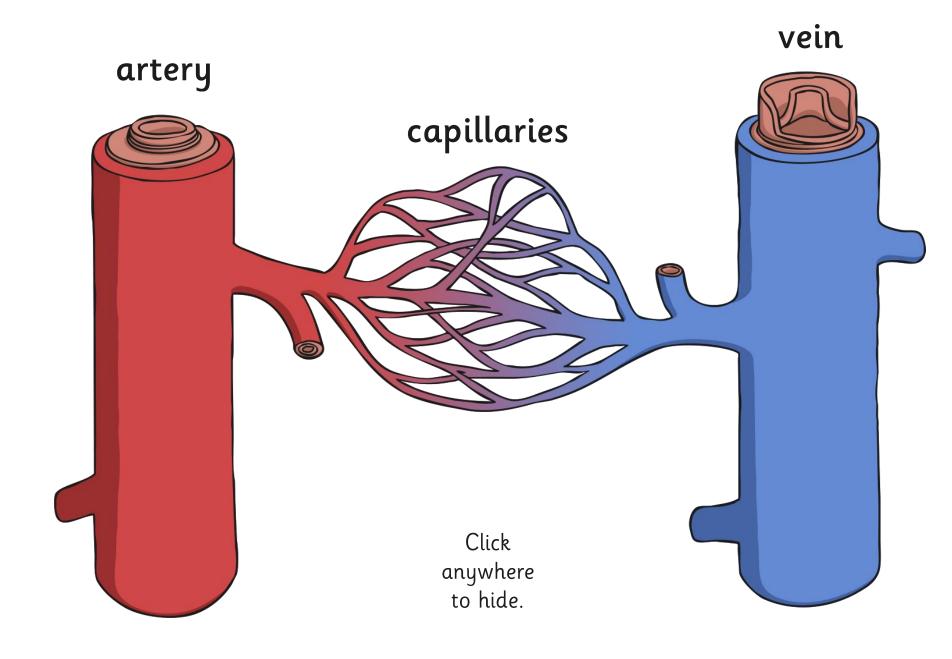

Is this what you expected?

Are there parts you did not expect to be in the circulatory system?

Click anywhere to hide.

## Parts of the Circulatory System

Complete the sheets - if you need help, check back to find the answers.
