# Day 1: Perimeter

Find the missing side lengths and calculate the perimeter of this rectilinear shape.

2m

4m

?

5m

2m

?

Perimeter = _m

Draw two different rectilinear shapes that have a perimeter of 28cm.

8cm

3cm

6cm

2cm

3cm

6cm

There are lots of different possible answers.

Here is an example.

twinkl.com

```
  1   0
  1   0
      8
      2
+     1
_____
  3   1   c  m
  1
```

Milo has worked out the perimeter of this rectilinear shape. Can you explain his mistake and find the correct answer?

10cm

1cm

8cm

10cm

2cm
