

Count to and across 100, forwards and backwards

- 1 Brandon starts at **11** and counts back **four** numbers. What number does he finish at?

- 2 On a number line, Jessica starts at **12** and counts on **7** numbers. What number does she count up to?

- 3 Isaac was counting forwards. What was the **ninth** number he said after **8**?

- 4 Rachel's mum has **£83**. She spends **£9** on a CD. Count backwards to find out how much she has left.

- 5 If you start at **109** and count back **13**, what number do you finish at?
